

## About this Planner

This is a planner based on the one that I created on the computer for my own personal use. I have shared it with several friends over the years, and at their suggestion have “depersonalized it” a little to put up on my website for your use! I hope you enjoy it.

I hope to change and update this as I am able, based on suggestions I get. If you could, please drop me a line at

[kimberly@joyfulmomma.org](mailto:kimberly@joyfulmomma.org)

and let me know what you think about this planner, and what I could do to make it better for you!

Feel free to copy this and share it with those you know, leaving the footer at the bottom of course, and this note. These planner pages are also available in other sizes as well, though slightly different.

To use this best, I think it would work to print off one sheet, personalize it with a thin black pen (insert your children’s names in the lesson planner, for example, and draw lines to divide it), and photo copy it for your use.

Enjoy!

Blessings,

Kimberly Eddy
